

Bogotá, Colombia

December 28, 2018

Dear Sirs of Le Rêve de Putu,

I am writing to wish you a Merry Christmas and a prosperous new year, I wish you the best blessings for next year and above all, a lot of health for you and your family.

I want to share with you a little of what was my 2018. In January I traveled with my friends to a town called La Vega, which is about 1 hour and a half from Bogotá, we stayed in a house that my boyfriend has there, and we share with nature several days. Days later I went to study my fifth semester in the University, in this semester I met new friends who have supported and helped me a lot, I also saw subjects that I liked a lot that were General and Statistical Management and Financial Accounting, likewise I was very well in all my subjects and of course I approved them all. On vacations of June-July, I worked in a makeup store called Cromantic, there I was working two weeks since it was only a seasonal job, then I traveled again to La Vega with my friends to rest and enjoy a little of what they were on vacation. Days later I went back to studying to study my sixth semester, I continued to strengthen my friendship with my friends and the subjects I saw that semester were focused more on what I am studying, some of them were Operational Research, Industrial Processes, and the most I liked it was Statistical Quality Control, and of course I approved all my subjects. In the end of the year, December-January, I worked two weeks in a lingerie store for women called Tania.

At Christmas I was with my whole family, and like every year we meet at my house and share a great dinner that we prepare together. In the New Year we likewise meet in my house with all my family and we share a delicious dinner and then we receive New Year and we continue enjoying the company of all.

I want to especially thank Le Rêve de Putu, because without you, nothing I did in 2018 would have been possible. Every day I thank God for the great opportunity you gave me. I am very fortunate to be able to count on you, because my biggest dream is to finish my university studies and thanks to you I am achieving it.

Thank you very much for your attention and I send you a big hug.

Fondly,

María Camila Flórez Bernal

P.S: Here I leave some photos of what was my 2018.
